EDUCATION

2024 - Present

ISLINGTON COLLEGE

- BSc(Hons) Computing

2022 - 2024

TRINITY INTERNATIONAL COLLEGE

- Science Faculty (Biology)

PROFILE SUMMARY

Motivated and dedicated computing student with a strong interest in programming, software development, and problem-solving. Seeking opportunities to apply my skills in Java, Python, and system design while continuously learning and growing in the field of technology.

WORK EXPERIENCE

Inred Labs

MAY 2025 - OCT 2025

Sales Intern

- Assisted in preparing and managing Memorandum of Understanding (MOU) and Service Level Agreements (SLA)
- Supported sales operations including lead generation, client communication, and follow-ups

ING Skill Academy

APR 2025 - OCT 2025

Customer Care Representative (CSR)

- Assisted students with admissions, course information, and administrative processes
- Maintained clear communication between students and college departments
- Managed records of student queries and ensured timely follow-up

STRENGTH

- Strong willingness to learn
- Consistent and disciplined study routine
- Good problem-solving mindset
- Ability to build complete beginner-level projects

TECHNICAL SKILLS

- Programming Languages: Java, Python
- Concepts: Object-Oriented Programming (OOP), Data Structures (Basic), Problem Solving
- Web Basics: HTML, CSS, JavaScript
- Tools & Technologies:
 - Java Swing (GUI development)
 - File Handling and Data understanding (Python)
 - Basic Database Concepts
 - Linux Commands

LANGUAGES

- English: Intermediate
- Nepali : Fluent
- Hindi : Basics

CERTIFICATES

- AWS Certification for Cloud Foundation
- AWS Certification for Machine Learning Foundation
- AWS Certification for Data Engineering
- AWS Certification for Machine Learning for Natural Language Processing
- UI/UX with Figma

PROJECTS

Gym Management System (Java, Java Swing)

- Designed and developed a desktop-based gym management application to handle member data and subscription plans
- Integrated features including member registration, plan activation, attendance tracking, and plan upgrades
- Utilized Java Swing for GUI development and event-driven programming for user interactions
- Applied OOP principles to ensure modular and maintainable code

WeCare Billing & Inventory System (Python)

- Developed a billing and inventory management system for a retail skincare store
 - Implemented promotional logic ("Buy 3 Get 1 Free") and automated VAT-based billing system
 - Used file handling techniques to maintain persistent product and transaction data
 - Generated structured invoices and improved efficiency of sales and stock management
-
